Bridge #5930, (Winona Highway Crossing)

HAER No. MN-91

T.H. 43 spanning Mississippi River between City of Winona, Winona County, Minnesota (south end) and Town of Buffalo, Buffalo County, Wisconsin (north end)

Documentation: 42 photographs of Main Channel Bridge (#5900) (1997)
1 photograph of Latsch Island's hydraulic fill dike and entrance ramp (1997)
9 photographs of North Channel Bridge (#5930) (1997)
5 photographs of grade-separation bridge over the Chicago, Burlington and Quincy Railroad (1997)

Andrew Baugnet, Photographer, April and May, 1997

- MN-91-1 Profile of Main Channel Bridge (#5900) looking east from Riverview Drive
- MN-91-2 Profile of Main Channel Bridge (#5900) and south approach, looking southwest from Latsch Island
- MN-91-3 South approach to Main Channel Bridge (#5900), looking south
- MN-91-4 South approach to Main Channel Bridge (#5900), looking north from Winona Street
- MN-91-5 South approach to Main Channel Bridge (#5900), looking northeast from near Winona Street
- MN-91-6 South approach to Main Channel Bridge (#5900), looking northwest from near Winona Street
- MN-91-7 South approach to Main Channel Bridge (#5900), looking north from south approach
- MN-91-8 Underside of deck of south approach to Main Channel Bridge (#5900), looking southwest
- MN-91-9 Piers and underside of deck, west side of south approach to Main Channel Bridge (#5900), looking south
- MN-91-10 Piers, west side of south approach to Main Channel Bridge (#5900), looking northeast from Third Street
- MN-91-11 Piers, west side of south approach to Main Channel Bridge (#5900), looking northeast from Second Street
- MN-91-12 Piers and underside of deck of south approach to Main Channel Bridge (#5900), looking north from Third Street
- MN-91-13 Piers and underside of deck of south approach to Main Channel Bridge (#5900), looking north from Second Street

- MN-91-14 Piers and underside of deck of south approach to Main Channel Bridge (#5900), looking north from near Second Street
- MN-91-15 Piers and underside of deck of south approach to Main Channel Bridge (#5900), looking north from edge of Mississippi River
- MN-91-16 Main Channel Bridge (#5900), looking north from south approach
- MN-91-17 Main Channel Bridge (#5900), looking north-northwest from south approach
- MN-91-18 South approach to Main Channel Bridge (#5900), looking south from bridge
- MN-91-19 Main Channel Bridge (#5900), looking northwest
- MN-91-20 View of perforated plates of Main Channel Bridge (#5900), looking southwest
- MN-91-21 Main Channel Bridge (#5900), looking north
- MN-91-22 Cantilever through-truss section of Main Channel Bridge (#5900), looking northwest
- MN-91-23 Cantilever through-truss section of Main Channel Bridge (#5900), looking west-northwest
- MN-91-24 Truss work, looking west from west side of south approach to Main Channel Bridge (#5900)
- MN-91-25 Truss work, looking west from west side of Main Channel Bridge (#5900)
- MN-91-26 Detail of pin holding central portion of Main Channel Bridge (#5900) in place, looking northwest on east side of bridge
- MN-91-27 Vertical and horizontal truss work, looking northwest from west side of Main Channel Bridge (#5900)
- MN-91-28 Through-truss section of Main Channel Bridge (#5900), general view, looking northwest near north approach
- MN-91-29 Through-truss section of Main Channel Bridge (#5900), looking northeast from north approach
- MN-91-30 Through-truss section of Main Channel Bridge (#5900), looking north from north approach
- MN-91-31 Through-truss section of Main Channel Bridge (#5900), looking northwest near north approach
- MN-91-32 Through-truss section of Main Channel Bridge (#5900), looking west at north approach
- MN-91-33 North approach to Main Channel Bridge (#5900), looking south from north approach

- MN-91-34 Underside of deck and piers of north approach to Main Channel Bridge (#5900), looking south
- MN-91-35 North approach to Main Channel Bridge (#5900), looking southeast from hydraulic fill dike near abutment
- MN-91-36 Main Channel Bridge (#5900) and north approach, looking south from Latsch Island entrance (north) ramp
- MN-91-37 Abutment of north approach to Main Channel Bridge (#5900), looking east
- MN-91-38 Abutment of north approach to Main Channel Bridge (#5900) and earthen dike, looking northwest from Latsch Island
- MN-91-39 North approach to Main Channel Bridge (#5900), looking north toward North Channel Bridge (#5930) and Latsch Island
- MN-91-40 North approach to Main Channel Bridge (#5900), looking north toward North Channel Bridge (#5930) and Latsch Island exit and entrance ramps
- MN-91-41 Entrance (north) ramp from Latsch Island to Winona Highway Crossing (in foreground), looking southeast toward Main Channel Bridge (#5900)
- MN-91-42 Hydraulic fill dike between North Channel Bridge (#5930) and Main Channel Bridge (#5900), looking south-southeast from Latsch Island exit ramp
- MN-91-43 Abutment of North Channel Bridge (#5930), looking northeast from Latsch Island entrance ramp, showing portion of hydraulic fill dike at right
- MN-91-44 West side of south approach to North Channel Bridge (#5930), looking northeast
- MN-91-45 North Channel Bridge (#5930), looking north from south approach
- MN-91-46 East side of North Channel Bridge (#5930)
- MN-91-47 Piers and underside of deck of North Channel Bridge (#5930), looking north from Latsch Island
- MN-91-48 Underside of deck of North Channel Bridge (#5930), looking south from north approach
- MN-91-49 North Channel Bridge (#5930), looking southeast from north approach
- MN-91-50 North Channel Bridge (#5930), looking south from north approach
- MN-91-51 State Highway Commission plaque on North Channel Bridge (#5930)

- MN-91-52 Abutment at north end of North Channel Bridge (#5930), looking northwest from east side of north approach
- MN-91-53 Grade-separation bridge over the Chicago, Burlington and Quincy Railroad and earthen dike, looking north from south approach
- MN-91-54 Grade-separation bridge over the Chicago, Burlington and Quincy Railroad, looking northeast from south approach
- MN-91-55 Grade-separation bridge over the Chicago, Burlington and Quincy Railroad, looking southwest from north approach from Wisconsin State Highway 35
- MN-91-56 Grade-separation bridge over the Chicago, Burlington and Quincy Railroad, looking south from north approach
- MN-91-57 Grade-separation bridge over the Chicago, Burlington and Quincy Railroad, looking south from north approach from Wisconsin State Highway 35
